Career Objective

Skilled Frontend Web Designer with a proven track record of delivering high-quality and user-friendly websites. With 2+ years of experience in the industry, I specialize in building responsive, accessible and visually appealing websites. Utilizing an eye for detail and cutting-edge design knowledge, I aspire to create compelling visuals that are both visually-pleasing and effective for achieving business objectives. I have completed 250+ websites that comply with the latest design trends. Adept in collaborating with cross-functional teams and delivering projects on-time and on-budget.

Experience

JamesCoders – Frontend Web Designer

Apr 2022 – Dec 2023   Gazipur, Bangladesh

- Created multiple responsive websites for mobile and desktop devices using HTML and CSS, as well as libraries such as jQuery.
- Worked with cross-functional teams to develop and execute on-time and on-budget projects and initiatives by effectively communicating project timelines, progress, and objectives using tools such as Skype and Zoom.
- Developed and executed front-end development strategies, resulting in a 15% increase in website performance by implementing optimization techniques such as code minification and troubleshooting issues using browser developer tools.

Industrial Solution & Automation – Frontend Web Designer

Aug 2022 – Present   Gazipur, Bangladesh

- Translated designs from PSD to HTML and CSS while ensuring that the UX and UI design are maintained.
- Built and tested application functionality to ensure a desirable user experience across all platforms.
- Optimized page elements to reduce loading time and debugged code to ensure cross-browser usability.
- Collaborated with other developers, designers, and project teams to ensure successful, on-schedule development and delivery of applications. Developed back-end components and integrated them with front-end applications.
